

**IT'S**  
**MY BULLET™**  
**With My Name On It**

**“Somewhere out there, there’s a bullet with my name on it.”**

Well, maybe so. But **HEY**, whoever said YOU can’t own that bullet?

What better way to juke the odds for that little extra edge than to know that the bullet that’s out there somewhere, **WITH YOUR NAME ON IT**, is safely tucked away in your own pocket?

**Now YOU can own it on a key ring!**

Each bullet is custom laser engraved to put **YOUR NAME** -- or the name of your favorite someone who may be headed into risky circumstances -- on the shell casing, running length-wise in up to two rows.

Can you imagine a better way to wish yourself or a loved one the very best of luck if you or they are in, or headed into, harm’s way? The fortunate and protected Civilian may not fully 'get it,' oh, but the Warrior surely will.

**And for only \$13 lucky bucks, with free shipping, it's a charming bargain.**
